

Symbology, Incorporated

Bar Code Evaluation Request

Level 1 - Inspection with a Calibrated ISO15426 Compliant Device
 Each bar code symbol is inspected, and a quality report including all 8 ISO parameters is provided. Samples are returned via first class mail. (Next day delivery is available if your UPS or FedEx account number is provided.)

Price: (Choose One)

___ **Linear bar codes (UPC, Shipping container, etc.): \$20 for first symbol, \$10 for each additional symbol in the same order.**

___ **2D codes (DataMatrix, PDF 417, DataBar, etc.) \$40 for first symbol, \$20 for each additional symbol in the same order.**

Estimated Turnaround Time = 1- 3 business days

Level 2 - Technical Evaluation and Summary Report
 A detailed evaluation is performed of the symbol's measurable parameters with an ISO 15426 compliant inspection device; as are additional evaluations using a variety of optical measuring tools. A written report is provided summarizing the findings, root causes and suggestions on improving the quality of the printed image.

Price: \$130 per hour, 1 hour minimum

Estimated Turnaround Time = 2 - 6 business days.

Level 3 - Executive Level Evaluation and Report
 Bar code quality issues of situational and technical complexity are examined and evaluated. In addition to the Level 2 review, an in-depth analysis is included of all components and factors such as the materials, specific printing process involved and scanning method. A written report is provided detailing the symbol quality and root causes, combined with real life experience in addressing the technical and legal issues present.

Price: \$260.00 per hour, 1 hour minimum

Estimated Turnaround Time = 7 business days
