

Symbology, Incorporated

## PTI (Produce Traceability Initiative) Labels

Symbology, Inc. is on the leading edge of PTI / produce tracking label implementation. For many growers, packagers and distributors, our PTI Solutions and traceability labels offer an efficient, economical answer.

Symbology's PTI expertise and real world experience help clients implement PTI in the most cost effective and accurate way. We'll work with your existing systems and ensure that your produce tracking barcodes conform to requirements.

### Case Labels

- Variety of accepted label sizes, designs and core sizes
- We'll help determine the correct adhesive for your application
- Labels can be pre-print or print on-demand
- Selection of background colors (red, yellow, white, orange etc.)
- Pre-print labels are designed to work with Symbology's custom label applicator
- Special material for RPCs and wooden cases

### Hybrid Pallet Labels

- A variety of sizes are available. The SSCC-18 barcode must be at the bottom of the label and the Count-of-Item labels must be stacked horizontally over the SSCC-18
- Multiple adhesives and core sizes
- Typically produced 1, 2 or 4 up for each SSCC-18 label; that may be applied to 1,2 or 4 sides of the pallet
- Selection of background colors (red, yellow, white, orange etc.)

### Count-of-Items Labels

- Placed on Hybrid Pallet label, these Count-of-Item labels are stacked vertically over the SSCC-18
- Can be pre printed to reduce cost and simplify application
- Same sizes and colors available as for Case labels
