## **Symbology, Incorporated Adds Software Engineer**

Minneapolis – Kevin Nickell has joined Symbology in the role of Software Engineer and will be an integral part of the Systems department. Kevin comes to Symbology with well rounded software development education and experience. He holds a degree in Computer Science, Information Systems from the University of Wisconsin at River Falls, and has regularly upgraded his skills via additional studies.

“Kevin is already making significant contributions in his new position.” according to Chris French, Director of Engineering. “We have a number of new software programs currently in development, so it’s great that he has been able to hit the ground running.”

To Symbology, Kevin brings his seven years of programming experience. Most recently, he worked at Efunds as Senior Programmer for the Deluxe Corporation; developing their 3-Tier client/server product order placement system.

Symbology, Incorporated, established in 1980, is a specialty manufacturer of sequentially numbered bar code labels, including customized security products. An ISO 9001 certified company, they are also the largest provider of bar code DigiCode® files and film masters, and offer a complete line of inspection equipment. Customers around the globe choose Symbology for its top quality products, technological expertise, and unsurpassed customer service. Offices are located in Maple Grove, Minnesota. Web address [www.symbology.com](http://www.symbology.com).
